

Jake Ruiz Zeledon

Software Engineer

Experienced Frontend Software Engineer with 8+ years building scalable, user-centric digital interfaces. Proven track record improving performance, accessibility, and user engagement. Skilled in React, Next.js, and TypeScript, delivering high-impact UI solutions.

Technical Skills: React · TypeScript · Next.js · JavaScript (ES6+) · Angular · HTML5 · CSS3 · Tailwind CSS · Redux · Node.js · NestJS · REST APIs · Git · Jest · React Testing Library · Cypress · CI/CD · AWS (S3, CloudFront) · Vite · Agile/Scrum

Professional Experience

Software Engineer · AG-Software May 2025 – Mar 2026

- Developed and maintained full-stack features for a large-scale education platform (Classical Conversations) using React, TypeScript, Node.js, and SQL Server.
- Built new React components and resolved complex production issues across frontend and backend services.
- Wrote automated tests and collaborated with cross-functional teams to ensure reliable deployments.
- Integrated REST APIs and contributed to improving system stability and maintainability.

Lead Frontend Developer · Sicsa Aug 2024 – Nov 2024

- Led the frontend redesign of a dropshipping platform, increasing page responsiveness by 35%.
- Integrated backend services using PHP and Laravel, reducing API response times by 20%.
- Optimized AJAX calls, decreasing frontend loading times significantly and enhancing maintainability.

Frontend Developer · Logacode Jul 2024 – Oct 2024

- Developed accessible, visually compelling UI components that reduced average user interaction time by 25%.
- Improved interface designs, boosting overall project satisfaction ratings based on client feedback.

Engineering Team Lead · Nicasource Apr 2022 – Sep 2023

Software Developer Jul 2021 – Mar 2022

- Led development on web applications, Alexa skills, and chatbots, serving high-profile clients including iHeartMedia and Big Spaceship, resulting in increased client satisfaction scores.
- Built and deployed scalable REST APIs and continuous integration pipelines, reducing deployment cycles by 40%.
- Mentored and guided a team of 5 developers, achieving a 95% on-time project delivery rate.
